

## Are you aware of these issues?

- Are you being affected by the **Cost of Living**?
- **Net Zero** = Green Agenda meaning **carbon taxes** are on the way, but is the green agenda driven by money and politics?
- Do LTNs, ULEZ, congestion, **per-mile road charges** *really* help us and the environment?
- 15-minute cities: travel restrictions, **confinement to your local area**
- Genetically modified ingredients in **foods no longer labelled** as such
- 5G, electric cars, data centres and surveillance are referred to as '**Green Technology**' yet they use more electricity, which simply drives up the cost of living

## SMART CITIES

Is the Grass Greener ?

Utopia or Dystopia ?

# THE CHOICE BEFORE US: SMART CITY OF THE FUTURE OR HOW WE LIVE TODAY?

## 5G MASTS & CELLS

High electricity costs & increased radiation levels

## NO PRIVATE TRANSPORT

The state will dictate when and how you can travel.

## FACIAL RECOGNITION CAMERAS

For safety or surveillance?

## DRONE DELIVERIES

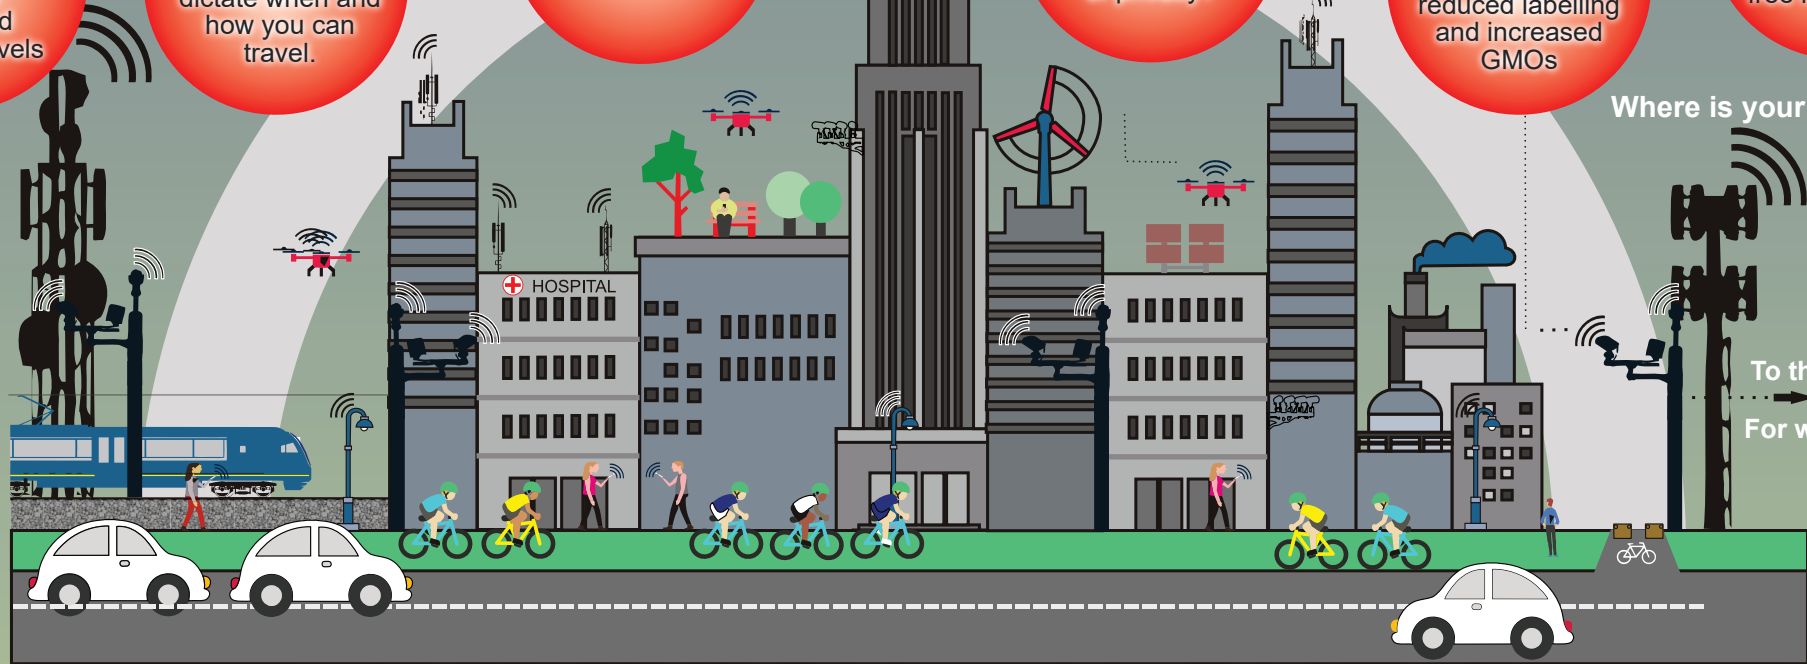

The future of logistics or invasion of privacy?

## FOOD CHAIN COMPROMISED

Insects in food, reduced labelling and increased GMOs

## ROAD BARRICADES & CLOSURES

15-minute restrictions = NO free movement.

Where is your data going?

To the data centre  
For what purpose?

# WHICH IS YOUR PREFERRED REALITY?

## AFFORDABLE HOUSING

Whether buying or renting, it should be affordable for all and not affected by inflation or taxes

## HEALTH & WELL BEING

Reduced waiting times, proper diagnosis face to face, affordable prescriptions,

## FREEDOM

To travel anywhere, use cash, speak freely and be free from increased surveillance

## SUPPORTING SMALL BUSINESSES

To thrive, boost local economy, create jobs, fair trade next to large corporations
